Don't Gamble In Clothes!

THE average man knows little about
clothes. He likes the color of the
fabric, the cut of the garments, but has
doubts of the wearing qualities.

He looks on clothes-buying at more or
less of a gamble. The man who chooses

MICHAELS-STERN CLOTHES does not gamble.
He takes no chances. Six months after he
has bought a suit he is still satisfied. The
wearing qualities are there.

POSTAL SAVINGS SYSTEM.—The
U. S. Postal Savings System was
instituted at the Owingsville post-
office May 1. Though depositors
have been slow to take advantage
of it they may do so when
they become better acquainted
with it. The postmaster furnishes
circulars giving details to
intending depositors. The con-
ditions are briefly summarized in
the following:

Any person over ten years of
age may make deposits of \$1, \$2,
\$5, \$10, \$20, \$50 and \$100, each
deposit bearing 2 per cent. interest
per year from the first day of
the month next following that in
which the deposit is made. No
deposits on a day less

than a month. The deposit is
paid up Tuesday to spend
two weeks home.

Ray Patterson, of Webster
County, came up last week
to hold meeting at Bald Eagle
Sunday.

Mrs. J. W. Jones and her sons
Ross and Henry, of Mt. Sterling,
were guests of Mrs. Mary Mc-
calfe and family Friday.

Supt. Leonard Cassity attended
the meeting of the school su-
perintendents of Eastern Ken-
tucky at Richmond last week.

Uncle Alf Butler, who has been
with Geo. A. Peed, near Taylors-
ville, Spencer county, came up
last week to visit friends. He re-
ports Mr. Peed's family pleased
with their new home and farming
flourishing.

HIGH SCHOOL MEET AT STATE
UNIVERSITY.—At the High School
meet at Lexington last Saturday
the Owingsville High School won
the most remarkable victory on
record. The school only entered
one contestant, Frank Collins,
and won three medals out of
three entries; two first medals
and one second. Other schools had
from six to eight on their teams,
and the Owingsville High School
only one on their team and made
sufficient points to win
second place in the meet. The
professional coaches at Lexington
say that it was the most remark-
able victory they have witnessed
for years. Hurrah for Collins!

Collins was considered the best
individual at the meet. He ran
second in the 100-yard, first in the
220-yard and first in the 440-
yard dashes.

CIRCUIT COURT DOCKET.—The
May term of Circuit Court begins
next Monday. The docket is
made up of 39 continued Com-
monwealth cases, 25 new Com-
monwealth, 33 continued equity,
15 new equity, 30 ordinary cases.

The only cases of prominence
in the continued suit of Mrs.
Hamilton Patrick against the
Licking Valley Railway Co. for
\$25,000 damages, there being
over 100 witnesses in the case,
and the indictment against Ed
Alexander for assault in the same
connection.

has sold the following persons
new buggies since April 25:

JUST ISSUED FROM THE PRESS

A NEW BOOK

"STEPS UNTO HEAVEN"

BY

N. C. CARPENTER

With an Introductory Chapter by T. S. Tinsley, City Evangelist,
Louisville, Kentucky.

Read what one of the many competent men says about the book.

MIDWAY, KY., APRIL 26, 1912.

Dear Brother Carpenter:

Your book, "Steps Unto Heaven," is a worthy "child of
your soul"—your firstborn suited to inherit double honor. Those
who read it thoughtfully will have better ears, keener eyes, deeper
hearts, and cleaner hands. The ears of many are dead and all
their spiritual powers are slumbering. We do no better thing in
this world than to awaken and point souls to Heaven. Your book
will do it! It is a sensible book: plain and true!

Yours sincerely and truly,

T. S. TINSLEY.

Hoping that this book will accomplish the mission on which it is
sent, I give it my richest benediction and send it forth.

3 CITY PUMPHOUSE RAMMED BY BOAT

STATION AT EDDYVILLE IS WRECKED BY RIVER CRAFT.

TOWN FACING WATER FAMINE

Damage Done Is So Great That City and Prison May Be Deprived of Water Unless Plant Is Speedily Repaired.

Eddyville.—This city is facing a water famine of a serious character, so far as fire protection and domestic service is concerned, as the result of the wrecking of the penitentiary pumphouse, when the tow boat Clyde rammed the pumphouse with her tow of six barges. A large part of the pumphouse was knocked into the Cumberland river, while a fine launch belonging to Capt. C. W. Depp, late electrician at the penitentiary, was practically ruined. The loss on the pumphouse and machinery is at least \$10,000 and may go higher, according to prison officials, while a conservative estimate of the damage to the launch is \$2,000. The pumphouse supplies not only the prison, but the city as well. Practically every family has resolved itself into a bucket brigade. The inmates of the Lyon county jail are being supplied in this primitive way. It is believed that the damage to the pumphouse and the pumps cannot be repaired under two weeks and it may take as much as three.

The pumphouse sets well up on the banks of the Cumberland when that river is at ordinary stage, but just now the Cumberland is at flood tide and practically surrounds the building, although the latter was still able to do its work. At the time of the accident the Clyde was coming down the river and it is supposed that she failed to reverse her engines in time to prevent a collision with the pumphouse. No one was hurt so far as known. The Clyde lost two barges. This is the first time in many years that the pumphouse has been out of commission.

NATURAL GAS FOR LEXINGTON.

Lexington.—There will be plenty of natural gas for Lexington next winter, and no danger whatever of another shortage similar to that during the cold weather last season, the emphatic assurance of Capt. John Tonkin, general manager of the Central Kentucky Natural Gas Company, who arrived here recently for the purpose of surveying along the survey lines to the West Virginia g

JUMPS INTO A WELL.

Central City.—Joseph Franklin Richardson, seventy-one, one of the best known men of the town, committed suicide by jumping into the well at his home on Third street, this city. Mr. Richardson had been in poor health and was subject to spells of despondency. He had just been conversing with his family prior to going down in town. It was thought he had gone when his daughter, Lula, looking out the door saw her father opening the well. Knowing that he was low spirited, she ran to him, catching her father's foot just as he plunged over the curbing. Holding fast to the foot and screaming for help the daughter attracted the attention of Alvis Banks and Jim Perkins. Mr. Franklin jerked his foot loose and fell headlong into the well before the passersby could reach the scene. Banks was lowered into the well, finding Mr. Richardson doubled up at the bottom. Both men were drawn to the surface, but Richardson never regained consciousness and died two hours later. There are no known reasons for the suicide other than ill health, and the fact that he had not been successful in securing satisfactory employment. Mr. Richardson was born in Logan county and served with distinction as a Confederate soldier, having been a member of the Orphan Brigade. He was for many years assessor of Daviess county, twice doorkeeper of the senate and represented Muhlenberg county in the legislature. He married Miss Jennie Morgan in 1871. Two children survive, Miss Lula Richardson of this city, and Mrs. S. A. Burns, of Daviess county, as well as his aged wife.

CHARGED WITH BIGAMY.

Maysville, Ky.—Perry Bradley, of this city, was arrested here recently charged with bigamy. He was given a preliminary trial before Police Judge Whitaker, and after the prosecution had shown, as it believed, that he had two living wives, from neither of whom he had ever been divorced, he was released under unusually interesting circumstances. The testimony showed that Bradley had married Miss Mary Lou Senks in Fleming county, Ky., in November, 1902, and that several years later, and without having been divorced, as alleged, he married Miss Mary Alice Turner, of this city, or West Union, O. His attorney, John T. Chamberlain, after these alleged facts had been set forth by the prosecution, sprang a surprise upon the court in the form of a judicial decision rendered by the Kentucky Court of Appeals, in which it was held, that where a person was married in this state and then later went to another state and married again without being divorced from his first wife, the violator was not amenable to the Kentucky laws, and the state courts had no jurisdiction to render. The decision is held that the person was guilty of bigamy as it was only amenable to the laws of the state in which the marriage was committed. When the trial was over the prosecution's case was dropped.

At the time of the accident the Clyde was coming down the river and it is supposed that she failed to reverse her engines in time to prevent a collision with the pumphouse. No one was hurt so far as known. The Clyde lost two barges. This is the first time in many years that the pumphouse has been out of commission.

KILLS HIS OWN BROTHER.

Georgetown.—Unfortunately taking his brother Isaac for a target, George Southworth blew the top of the former's head off with a double-barrel shotgun. This tragedy occurred at their home at Lytle's Fork, Scott county, when Isaac, the youngest boy of the family returning from a fox hunt, sought to reach the key which usually hangs over the front door when either brother is out. George, the 22-year-old brother, had returned home at 10 o'clock and had several times been disturbed by unusual noises which had made him nervous. Hearing the fumbling above the door, he reached for his gun, and fired through the unraised window blind. With sorrow, he soon discovered it was his own brother he had killed. He has almost lost his mind as a result. Both brothers were farmers.

LAUNDRYMEET.

Hopkinsville.—With nearly one hundred delegates present from all parts of the state the Kentucky Laundry Owners' Association was called to order at the Latham Hotel by President T. M. Funk, of Paris. After an invocation by the Rev. E. B. Landis, the visitors were welcomed by Mayor Meacham, and the response was spoken by F. S. Katterjohn, of Owensboro. President Funk, in his annual report, recommended that all future meetings be held alternately at Louisville and Lexington. An invitation from Lexington to meet in that city next year will be acted upon tomorrow. The delegates visited the Princess theater and Holland's opera house and were entertained later at a reception given by Thomas L. Metcalfe. The meeting will close with a barbecue on Lake Tandy.

FILE INJUNCTION.

Evansville.—The salary ordinance which was decided against the county court, will be carried to the higher courts on injunction proceedings filed in the circuit by William Cardwell and C. W. Card. In their petition, they ask the city treasurer to be enjoined from paying the increased salaries or benefits from receiving them until further orders of the court.

SUFFERERS TAKEN CARE OF.

Hickman.—The government in winding up its flood relief depot turned over to the relief committee 1,000 pounds of coffee, 20,000 pounds of meal, 4,000 pounds of bacon, 14 barrels of molasses and three barrels of sugar. In addition to this, the relief committee has \$3,500 in cash for disbursement. With these supplies and cash all the remaining flood sufferers can be well taken care of until they have gotten back to work. Health conditions are excellent.

NICHOLASVILLE.—THE SUNDAY SCHOOL INSTITUTE OF THE LEXINGTON DISTRICT HELD A RECENT SESSION AT THE SOUTHERN METHODIST CHURCH, WITH ABOUT 50 DELEGATES IN ATTENDANCE. DR. S. S. DEERING, OF LEXINGTON, PRESIDING ELDER OF THE DISTRICT, PRESIDED AT THE SERVICES. AMONG THE SPEAKERS WERE THE REV. O. B. CROCKETT, OF LEXINGTON; W. J. VAUGHN, OF LOUISVILLE; E. S. BOWELL, OF LOUISVILLE AND C. H. GREER, OF WORTHVILLE. THE FOLLOWING COUNTIES ARE REPRESENTED AT THE INSTITUTE: FAYETTE, WOODFORD, CLARK, ESTILL, MONTGOMERY, EAST, ROWAN, POWELL AND JESSAMINE.

FROM OLD KENTUCKY

Central City.—Joseph Franklin Richardson, seventy-one, one of the best known men of the town, committed suicide by jumping into the well at his home on Third street, this city. Mr. Richardson had been in poor health and was subject to spells of despondency. He had just been conversing with his family prior to going down in town. Two children survive, Miss Lula Richardson of this city, and Mrs. S. A. Burns, of Daviess county, as well as his aged wife.

Olive Hill.—Maton P. Slaver, night foreman at the Olive Hill Fire Brick company's clay kilns here, was instantly killed in the mines by falling slate. He was eating his lunch when, without warning, the slate fell upon him.

Henderson.—Work on the Henderson dam No. 48 will be delayed, according to Elcock & Co., who have the contract, because of the inability of the saw mills to deliver the lumber as agreed upon. This inability is due to good conditions and the wet spring.

Nicholasville.—Isaac Christman, a farmer living near Wilmore, committed suicide at his home by shooting himself through the head. The deed is supposed to have been prompted by ill health. He was a bachelor and lived with his brother.

Greenville.—Frank Frei, merchant of this place, was working on his barn when he accidentally stuck a pitchfork in his foot. Symptoms of blood poisoning developed later, and his condition became so alarming that the antitoxin treatment was given him. His condition is critical.

Maysville.—Robert A. Cochran, of this city, at a recent meeting of the Ebenezer Presbytery at Ludlow, Ky., was elected as elder commissioner to the General Assembly of the Presbyterian church, which meets at Louisville during the coming summer. J. E. Bassett, of the Second Presbyterian Church, of Lexington, was elected alternate.

Henderson.—Lightning and wind played some tricks here during a heavy windstorm, which was accompanied by rain. Lightning struck a barn at the dairy farm of W. S. Holloway and killed a fine Jersey cow valued at \$85. The other cows in the same barn were not hurt. The wind blew down several small smokestacks and half broke a window at the Jefferson school.

Maysville.—Robert A. Cochran, of this city, at a recent meeting of the Ebenezer Presbytery at Ludlow, Ky., was elected as elder commissioner to the General Assembly of the Presbyterian church, which meets at Louisville during the coming summer. J. E. Bassett, of the Second Presbyterian Church, of Lexington, was elected alternate.

Go to hairdressers if you can afford it; they keep the hair in such good condition, but insist on their following the general lines you have adopted on your individual culture.

TEEDY and Taft fall in Massachusetts, similar result is foretold by the know

WHEN it comes

some members of B. L. of the farrin parts ma the room in wn. Wm. Taft, President, is standing. If we are not already th coming to it fast.

A QUEER situation results in the Massachusetts President, primary election. Taft carried the State by 3,000 to 4,000, but the Roosevelt delegates from the State-at-large were chosen, thus dividing the delegate vote of 36 equally between Taft and Roosevelt. Before the election the Roosevelt managers proposed to the Taft managers to let the preferential vote for President control the vote of the delegates, but the Taft managers declined the proposition. Now Roosevelt says the delegates instructed for him should vote for Taft, but some of the delegates at least say they will vote for Roosevelt notwithstanding. No one but Teddy would decline the gifts the gods provide in politics.

LEAVING NO CHANCE! A corps of surveyors are up at work surveying a route for a steam or electric railway up main Licking river.

The survey is being made along the eastern edge of Harrison Co., up the Licking river valley, and it is reported the route runs to Mt. Olivet or Flemingsburg or some other near point.

Of course many surveys are made without a road being built, but nevertheless the fact that the survey is being made carries with it the possibility of a new road of some kind. It is possible that a traction line is to be built from Newport following up the Licking valley.

Last week's Falmouth Outlook says of the survey:

"Messrs. A. L. Clairborne, of Richmond, Va.; J. B. Walker, of Cincinnati, and A. C. Walker, of Luray, Va., arrived Saturday with corps of engineers and assistants for the purpose of surveying a traction line from Paris through Cynthiana, Mt. Olivet, Claysville, Falmouth and Butler to Cincinnati. Mr. Clairborne and the Walkers are the largest and most successful railroad promoters in the country; their coming means something more than passing notice to our country. Our opinion is that we have more than an even chance of securing a traction line at an early date."—Cynthiana Log Cabin.

A REBURN TO UNPRODUCTIVE WOMEN.—In an article on the "Irresponsible Woman and Friendless Child," in the Lay American Magazine, Ida M. Tammell says:

"The heaviest burden to-day on productive America, aside from the burden imposed by a vicious industrial system, is that of its non-productive women. They are the most demanding portion of our society. They spend more money than any other group, are more insistent in their cry for amusement, are more resentful of interruption of their pleasures and excitements, go to greater extremes of indegence and uncleanliness.

"The really serious side to this parasitical group is that great numbers of other women, not free, forced to produce, accept their standards of life. We hear women, useful women, everywhere talking about the desirability of not being obliged to do anything, comiserating women who must work, comiserating those who have heavy household responsibilities and by the whole of their words and acts, influencing those younger and less experienced than themselves to do likewise.
